

**MTSD Technology Mentor Program
2004-2005**

PARTNERSHIP AGREEMENT

GOALS for the protégé teacher:

- To develop technology skills and their application and thus measurably advance in technology integration (using LoTi levels) during one year with a mentor
- To develop, compose written plans for, and implement a technology project connected with the curriculum that will enhance students' learning through their use of technology
- To share the technology project with teaching colleagues within the building

GROUND RULES for the mentoring process:

- Our meetings will begin and end on time (according to mutual agreement).
- Each of us will actively participate in the relationship.
- Our communication will be open, candid, and direct.
- We will respect our differences and learn from them.
- We will honor each other's expertise and experience.
- We will safeguard confidentiality.
- We will manage our time well.
- We will put interruptions aside.
- We will be accountable to our relationship, to the learning process, and to goal attainment.

MEETING TIMES: at least one time per month

(Exact dates and times to be determined by both mentor and protégé):

COMMUNICATION OPTIONS (to be determined by both mentor and protégé):
