**Position:**

**GOALS**

**For the mentor teacher:**

- To provide a distributed learning model to help protégés advance measurably in technology integration through close, personal, collaborative mentoring relationships between a mentor and 2 to 3 colleagues each year for three years
- To develop, compose written plans for, and implement a new technology project connected with the curriculum that will enhance students' learning through their use of technology
- To measurably advance in technology implementation (using LoTi levels)

**For the protégé teacher:**

- To develop technology skills and their application and thus measurably advance in technology integration (using LoTi levels) during one year with a mentor
- To develop, compose written plans for, and implement a technology project connected with the curriculum that will enhance students' learning through their use of technology
- To share the technology project with teaching colleagues within the building

**TECHNOLOGY IMPLEMENTATION**

What is your estimated LoTi Level?

Level 2 and above: How have you used technology with your students?

**REASONS TO PARTICIPATE**

I would like to become a protégé teacher in the technology mentor program this year because:

I am applying to become a protégé teacher for the 2007-2008 school year.

I understand and agree to the GOALS above. \_\_\_\_\_
