Dear Parents:

The purpose of this newsletter is to keep you informed about our Title 1 Program. In this newsletter you will find general information about the program and some notices the federal government requires of us. We hope you find the information useful and we look forward to meeting you at upcoming events.

What is Title 1?

Title 1 is a federally funded program designed to help schools provide supplemental services to students having academic difficulties. Manheim Township uses these funds in our Middle School and High School to provide resources such as our co-teaching support in math, reading, social studies and language arts classrooms where two teachers are present at all times to better meet student needs; as well as purchasing instructional technology such as computer software and calculators and other print materials to assist students in their learning.

Annual Title 1 Parent Meeting

The Middle School's annual Title 1 Parent Meeting will be held on **Thursday, September 10th at 5:30 pm** by Zoom.

A link will be provided to you by the MS principal. The High School's Title 1 Parent Meeting will be held on **Thursday, September 24th at 5:30 pm** by Zoom. A link will be provided to you in an invitation to the meeting. The purpose of the meeting is to inform parents of what Title 1 is, an opportunity to ask questions and provide feedback in regards to your child's education.

Your Rights to Information about Your Child's Teachers

As a recipient of Title 1 funds, we are required by federal law to notify you that you may request, and the district will provide upon request, information about the professional qualifications of your child's classroom teachers. We will provide you with the following:

- Whether the teacher has met state qualification and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- Whether the teacher is teaching under emergency or other provisional status through which state qualification and licensing criteria have been waived.
- The baccalaureate degree major of the teacher and any other graduate certification or degree held by the teacher, and the field of discipline of the certification or degree.
- Whether the child is provided services by paraprofessionals and, if so, their qualifications.

How did your Child become Involved in the Program?

The Title 1 program is designed to assist students in developing their reading and mathematics skills. This year our Reading support is delivered through Strategic Literacy classrooms. The mathematics support is being delivered through specific classes designed for students who have previously struggled with mathematics.

Students are identified for Title 1 programs in a number of ways. The primary means is through their selection of non-college prep coursework. Another means is through reading testing that identifies specific reading difficulties that need to be addressed. Lastly, students are monitored throughout the school year both via classroom grades and a variety of assessments. Students who are struggling with their grades and assessments will generally be referred to the program. If you have questions as to why your child has been identified for the Title 1 program, please contact John Loose or Christine Resh.

A Plea for Help

Having involved parents is a critical aspect of the most successful school programs.

Would you be willing to help build our Title 1 program?

We have numerous places where we could use assistance. If you have strengths in mathematics and/or reading we could use your skills to work directly with students! We need parents to help us plan our parent activities to make sure they are meaningful and well supported. We also need parents to participate in our Title 1 committee where we consider budgeting and what programs to offer.

If you would like to be involved please contact John Loose (717) 560-3097 or Christine Resh (717) 560-3111. We would greatly appreciate any time or assistance you can provide.

Lancaster Career & Technology Center

Did you know that every year we have Manheim Township seniors who graduate and enter the workforce whose starting salary is higher than our Township alumni who are graduating from college during the same year?

These students attended the LCCTC! The LCCTC www.lcctc.org provides an outstanding opportunity for our students. Students can attend the LCCTC ½ days during their junior year and full days during their senior year. The LCCTC offers a myriad of programs where students can complete their high school careers while actively engaged in learning a career. Students graduate with a diploma from both Manheim Township and the LCCTC, along with earning required certifications in their chosen field of study. The LCCTC also has dual-enrollment agreements with local colleges whereby students can earn college credits while still in high school.
