June 5, 2019

This communication is to update you on the Middle School Campus Construction Project during the summer months of June, July, and August 2019. As our construction crew moves forward to get as much work done during the summer months as possible, there are a few changes that will take place on the campus over the summer months.

Campus construction will necessitate an adjustment to traffic flow on the campus. Please note that the entrance from Route 501/Lititz Pike will be closed to **ALL** traffic from June 6 - August 15, 2019. The only entrances that will be open during June, July and August is the entrance at Oregon Road and Valley Road.

For further clarification, please see the attached map with traffic patterns to enter and exit the campus from June 6-August 15, 2019. The highlighted “blue” areas are the roads and parking lots that are open to the public.

For the 2019-2020 school year, we will communicate in August the new campus traffic pattern and student pick-up/drop-off procedures. Please look for this information closer to the start of the school year.
